7th EuBIS Seminar and Training 17th - 19th of April 2016
Regional Arabic Conference

إدارة الجودة و معايير التفتيش لمؤسسات الدم

Seminar and training scope:

Comprehensive overview of commonly used standards and criteria summarised in the EUBIS manual and training guide

Learn to define critical sub-processes for quality management

Advanced knowledge on how to use the cross-reference to commonly used standards and regulatory requirements such as the

- EU blood directive
- GMP standards
- CoE (EDQM) guide
- PIC/S guidelines.

Learn common practice and get practical advice for the inspections of blood establishments covering the

- collection,
- processing,
- testing
- storage and distribution

of blood and blood components.

Practical exercises to train your knowledge in

- Planning of inspections and defining critical control points
- Risk based assessment and management of errors
- Observation and communication skills
- Classification of observations and errors

Finally the training course will be an excellent opportunity to meet experts in the field coming from blood establishments and competent authorities.

Language skills: English
