'Good practices in blood components and medicinal products referring to GPG and GMP'

Quality management and inspection criteria
for blood establishments and pharmaceutical products

27th of February – 1st of March 2018, Rome, Italy

**organised by the EuBIS Academy
in cooperation with the Centro Nazionale Sangue (CNS)**

1st Announcement for registration www.eubis-europe.eu

9th International Seminar and Training Course - Rome, 27th February - 1st of March 2018

Seminar and training - From Good Practice (GP) to Good manufacturing Practice (GMP) – blood components and medicinal products

The seminar will build on previous EuBIS training courses with the scope to train on the impact of the new regulation of Good Practice for blood and blood components in the European Union.

The seminars will comprise lectures and group work in a face-to-face fashion based on cases covering several aspects of GP and GMP such as: GP Guidelines, Inspection/Audit, Validation, Change Control, Corrective actions, Risk Assessment.

Previous participation in a EuBIS/Catie course is beneficial but not a prerequisite.

Training course language: English

Course fees European/International participants: 470,- €

Course fee for Italian participants: 210,- €*

*reduced fee for inspectors engaged by CNS for regulatory inspections

Registration: www.eubis-europe.eu (Meetings and Courses)

Participants are offered an examination (optional) with a certificate of successful participation by EuBIS Academy / CNS.

Training course participants:

- Qualified as inspectors by a Competent Authority
- Individuals working in a blood establishment in the area of quality management.

Training places are limited: Selection of training participants and confirmation of participation will be on the basis on time of registration.

Two additional courses are foreseen to be organised in Italy (Sept./Oct. 2018 and Feb./March 2019). More details will be shared in due time.
