Quality management and inspection of blood establishments - EuBIS Seminar and Training Workshop –

*‘From Good practices to best practices’
in blood and blood components referring to GPG and GMP*

*“從良好實踐到最佳實踐”
在血液和血液成分中參考GPG 和GMP*

EuBIS#Virtual – China – 24th of November 2022

**Organised by the Beijing Red Cross Blood Center,
The Nanjing Red Cross Blood Center
and the Management Committee,
Chinese Society of Blood Transfusion
in cooperation with the EuBIS Academy**

Virtual Seminar and Training Course – China, 24th of November 2022

Welcome Address

Dear Participants,

Quality management and inspection of blood establishments are a key stone in achieving best practice and guaranteeing the safety of blood and blood components for transfusion. The European Blood Inspection System (EuBIS), initiated under the Public Health Programme of the European Commission, Directorate General SANCO, has developed a manual and a guide containing standards and guidelines for quality management and the inspection of blood establishments. The EuBIS guide includes references to international standards such as the Good Practice (GP) and Good Manufacturing (GMP) Guidelines with the objective to give assistance in promoting it's mission 'from good to best practice'.

Based on the EuBIS manual and guide the EuBIS Academy has organised training seminars and courses in order to promote knowledge in the area of quality and safety of blood and blood components throughout Europe and worldwide. The training has received extensive international reputation with participants from all EU member states and world-wide (such as China, Norway, Switzerland, Turkey, Brazil, Curacao, Morocco, Macedonia, Nigeria, Singapore, Saudi Arabia, Qatar, South Africa, South Korea, United States of America).

The virtual EuBIS seminar and training course is organised as a Regional Chinese Conference by the Beijing Red Cross Blood Center (BRCBC), the Nanjing Red Cross Blood Center (NRCBC) and the Management Committee of the Chinese Society of Blood Transfusion (CSBT) in cooperation with the EuBIS Academy.

On behalf of the EuBIS Academy, the BRCBC, the NRCBC and the CSBT, we are happy to welcome you to this virtual meeting and hope that we will have an exciting training including fruitful discussions and extensive exchange of ideas.

Virtual Seminar and Training Course – China, 24th of November 2022

EuBIS Seminar and training workshop – ‘From good to best practice’ referring to Good manufacturing Practice (GMP) of blood and blood components

The **Virtual Seminar** will comprise Lectures and Case work and intends to prepare the participants to understand principles of GMP / GPG including aspects of quality management as referenced in the EuBIS guide based on cases covering several aspects of quality management system such as:

- EuBIS guide covering all critical steps for a quality management system with cross-references to PIC/S, EU Directives, GP guidelines and GMP guidelines

Special focus will be on the following topics:

- General principles of quality management systems and inspections
 - Regulations and regulatory framework
 - Risk assessment.
- linked topics as below will be outlined.
- Requirements for buildings, premises and storage facilities
 - Inspection / Internal Audit

Training course language: **English**

Distant Learning Material:

Please find Information for preparing for the training (EuBIS Training Guide and GMP/GPG related guidelines and documents): www.eubis-europe.eu

Training course participants:

- Qualified as inspectors by a National Regulatory Authority (NRA)
- Individuals working in a blood establishment in the area of quality management.

Participants will receive a certificate of participation.

Registration for the EuBIS#Virtual seminar:

Training course participants are requested to register via the Nanjing Red Cross Blood Center.
